

Forward-thinking strategies at Southeast Community College lead to future-ready students

Lincoln, Nebraska | 2-year | Public | 10,000 students

The challenge

An ambitious strategic plan to meet community needs.

With an out-of-date, quarter-based academic calendar and widening skill gaps in the local workforce, Southeast Community College (SCC) embarked on an operational overhaul to better inform student enrollment, advising, and career readiness.

The solution

The right tools for transformation.

Ellucian Colleague
CRM Advise

The result

Getting students where they need to go.

Partnering with Ellucian, SCC improved articulation by converting to a semester-based calendar, mapped course availability to meet workforce needs across their 15-county service area, and established a data-driven advising model to provide insights and efficiencies needed to keep students on track.

Impact

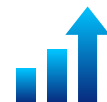

12%

increase in student success rate under new advising model

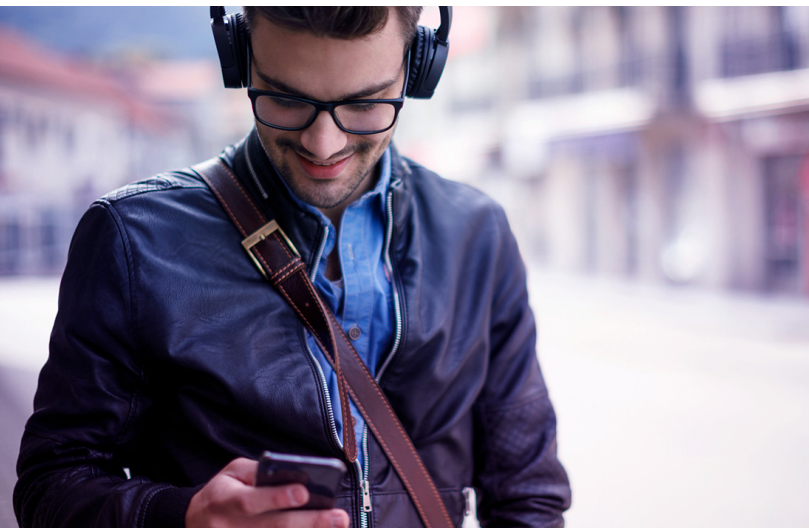

5%

increase in retention rate

1%

enrollment increase in 2021 compared to the 6% national average decline
