# Banner® 9 Student Administrative Transformation

*Extend and enhance your investment in Banner® Student*

> "We are happy to see continued momentum from Ellucian on transforming many of their Administrative modules. Having an updated user interface combined with having the same rich functionality in place lets us keep moving forward but stay up to date easily."

**Director of Application and Web Systems Development, Central Oregon Community College**

Banner® Student delivers the kinds of experiences today's users expect. With Banner Student, you get a modern and innovative look and feel, manage data strategically, and provide staff with secure access no matter where they are or what they want to do.

Banner Student® Administrative Transformation was developed using the Ellucian Extensible Ecosystem, a set of development principles that enhance and extend Ellucian solutions. These design principles are built around usability, mobile-first technology, cloud-readiness, extensibility, and accessibility to help you tailor your Ellucian solutions to what you want them to be.

## A modernized user interface

You already know that Banner Student provides a full range of functions—from strategic data management to records processing—with a robust and seamless central repository for your critical student information. Banner Student Administrative Transformation brings a fresh appearance and functionality to Banner Student and reduces the amount

of training needed for your staff to use it, including a powerful and flexible user interface, built for today's faculty and staff. Banner Student is designed to be mobile responsive—so it is tablet friendly as well.

**The new interface grants your institution's users:**

- Improved accessibility

- Usability improvements to help new and infrequent users

- Familiar-but-enhanced usability for power users—the same business rules, similar shortcut keys, but better navigation

## Flexible and mobile

Banner Student Administrative Transformation not only offers a fresh and improved user interface, but also enhances navigation with built-in industry-standard web controls and consistency from page to page, making it more

**ellucian.**

intuitive to use. It's also designed with a global audience in mind: regional, specific localizations and language translations are also available.

Along with system messaging, multiple record views, and "lookups and filter" functionality, Banner Student Administrative Transformation offers the ability to brand the application according to your institution's color palette and imagery. And the application's extensibility framework also makes it easy to utilize your own modifications. Best of all, Release 9.3 is created to be tablet-friendly. That means your users can access the information they need anytime, from anywhere.

## Innovation without disruption

With Banner Student Administrative Transformation , a more modern user interface and improved accessibility go hand-in-hand. This release enables you to:

- Move to the cloud when you are ready

- Save time by managing upgrades easily via Ellucian Solution Manager

- Experience seamless navigation between and within Banner® by Ellucian versions with Application Navigator

- Reduce the need to modify source code by utilizing extensibility tools

Ellucian understands that today's institutions demand flexibility—especially when considering options for moving to the Cloud. Banner Student Administrative Transformation paves the way for you to easily migrate to the Cloud at your own pace. And because of Banner Student Administrative Transformation's innovative and intuitive design, new and infrequent Banner users will be able to quickly and easily navigate the application, which means less required training— and more efficient operations. Power users will be pleased with the familiar business rules and shortcuts, and will enjoy the enhanced usability and navigation.
