Ellucian
Payment Center
by TouchNet

Payment transactions across campus have grown in both volume and complexity. With more payment channels, payment points, and merchants, you need a sophisticated and secure solution to manage the complexity and deliver campuswide oversight and visibility. **Ellucian Payment Center by TouchNet®** is that solution.

Designed specifically for colleges and universities, Ellucian Payment Center by Touchnet is an enterprise-grade, turnkey solution that drives operational efficiencies with commerce automation. Easy to use for students, parents, and staff, Payment Center integrates with campus student and finance systems to bring users real-time information – all while reducing your institution's PCI footprint and meeting the latest compliance regulations.

- **Powerful Payment Gateway provides secure, scalable payment engine**

- **Central management dashboard makes Payment Center easy to use**

- **Student Account Center gives students and parents a host of self-service options**

Ellucian
OneCard VIP
by TouchNet

Ellucian OneCard VIP by TouchNet® is the next generation campus card system designed for today's students and administrators. OneCard VIP runs in the cloud, stays in sync with student information systems, and manages a broad range of permissions and authorizations required on today's modern campus. It is designed to be simple, integrated, and mobile.

Ellucian OneCard VIP is the next generation campus card system designed for today's tech-savvy students. It is a Vertically Integrated Platform (VIP) that runs in the cloud, stays in sync with other Ellucian systems, and manages the broad range of constituent permissions, access, and authorizations required on today's modern campuses. What's more, OneCard VIP can be expanded with unique and specialized applications to expand access and security, including meal plans, dining options, door and access control, and POS payments.

Cloud

OneCard VIP runs in the cloud. It is no longer necessary to maintain and support complicated legacy systems on campus.

Integrated

OneCard VIP communicates in real time with other Ellucian systems to ensure accuracy and promote student security and ease of use.

Mobile

OneCard VIP turns student smart phones into campus IDs and virtual access devices to campus services, events, and activities.

A Strategic Partnership

Ellucian and TouchNet have come together in a strategic partnership to offer colleges and universities enterprise-grade platforms for campus-wide commerce and credentials. As an Ethos integration partner, TouchNet powered solutions are functional, secure, and deeply integrated into the framework of Ellucian product suite, delivering greater efficiency, visibility, and scalability in ways that only a long-term, strategic partnership can.
