

Teaching and Learning with Technology Services

Optimizing the student experience through academic technology

Today's uncertain environment requires academic institutions to seamlessly transition quality, in-person instruction to online or hybrid delivery methods. Although this task may seem daunting, the Ellucian Teaching and Learning with Technology Services team has proven experience providing curricular, programmatic, and design support to rapidly deploy online courses through customized faculty development. With a strong emphasis on student engagement and course quality, we coach your faculty in translating their subject matter expertise and teaching excellence to an online environment.

Ellucian Learning Experience

Our Ellucian Learning Experience (ELEX) professional development equips faculty with everything they need to confidently develop and deliver engaging online content. Offered in a range of formats designed to meet your institution's timelines and needs, ELEX features synchronous weekly training sessions, practical examples, and exercises built into your Learning Management System (LMS). These resources—also available on-demand after completion—enable faculty to master the technologies and strategies necessary for designing relevant, authentic online learning experiences.

Our ELEX Professional Development

COURSE	OBJECTIVE	OVERVIEW
ELEX Tools	Empower faculty to deliver synchronous and asynchronous engagement with learners	<p>Designed for faculty interested in using technology to maximize student engagement in both online and hybrid delivery environments</p> <p>Helps faculty who have never used the LMS to quickly learn how to create content, activities, and assessments for their students alongside an expert learning experience designer</p>
ELEX Engage	Create active learning and assessment elements for successful online or hybrid course delivery	<p>Combines ELEX Tools with the addition of professional development for designing online and hybrid courses</p> <p>Helps faculty develop courses that motivate and engage learners</p> <p>Reviews strategies for connecting with online learners, recognizing their challenges, and designing relevant, authentic instruction to drive learner motivation and student success</p>
ELEX Design	Design and finalize an entire course with the institutional capacity to support ongoing production and maintenance of online courses	<p>Includes all components of ELEX Tools and ELEX Engage, plus the critical guidance and compliance of design and development</p> <p>ELEX designers will partner with your technical and instructional teams to improve the processes that impact course development</p> <p>Guides faculty to create content that can be delivered both synchronously and asynchronously while meeting compliance and regulatory requirements of online learning</p> <p>ELEX designers monitor course development progress on a weekly basis with regular time on task checks and quality assurance reviews</p>
