

ONLINE TRANSCRIPT ORDERING

FAST, SIMPLE, EFFICIENT

Manage student demands with speed and simplicity, while simultaneously increasing staff productivity. **TranscriptsPlus®** from Credentials Solutions is an industry leading, comprehensive and proven online service designed to streamline the transcript ordering process.

TranscriptsPlus® is a fully automated online transcript ordering service that provides the first step towards transcript automation. With flexible solutions tailored to fit each institution's unique policies and procedures, the platform has over 3,000 variables and customizations including service options, pricing, school colors and logos.

The dynamic interface offers 24/7 availability from anywhere in the world, ensuring your students and alumni can instantly and securely order a transcript, regardless of their location, time zone, or device platform. This saves students and staff time by eliminating the lines and backlogs that can form at the end of the semester, freeing up your staff and facilitating a more productive environment as they perform more critical tasks on campus.

TranscriptsPlus® integrates with all major SIS, including legacy systems, with a fast and easy implementation process. With our best in class customer service team and intuitive user interface, **TranscriptsPlus®** is trusted by over 550 leading universities and colleges across the country.

"Our students are thrilled to be able to order and receive their transcript in mere minutes, and to be able to track their transcript orders to graduate schools, companies and agencies. We no longer receive the "where's my transcript?" calls. It has been a win-win-win-win solution for us, our students, our employers and graduate schools!"

John R. Papinchak
University Registrar, Carnegie Mellon University

Benefits

- Allows 24/7 secure, self-service access to students and alumni
- Cuts transcript specific labor and material costs
- Eliminates tedious staff data entry for reduced risk of error
- Offers live customer service for staff and end users
- User-friendly interface eliminates need for account creation or separate login

Features and Functions

- Secure & Compliant: FERPA, PCI-DSS
- Complete audit trail of every transaction
- Automated email and text messaging communication with students
- Online order status and tracking with acknowledgment when order is complete
- Dynamic ordering interface compatible across all devices
