Busy fundraisers must be able to access and manage prospect and proposal portfolios quickly and efficiently, whether in the office or out in the field. Ellucian CRM Advance supports the complex requirements of donor cultivation and retention, as well as contribution processing.

With Ellucian CRM Advance, fundraising staff can easily identify goals, make faster decisions, and measure progress. Customized for higher education advancement efforts, it’s built with input from our customer community. Ellucian CRM Advance allows you to set up alerts and workflows, personalize outreach, and use analytics to help identify new targets—all components that ultimately result in the support you need to run successful campaigns.

“CRM Advance is opening the door to leverage our information like never before, allowing us to capture individuals’ interests and market to them as they want to be marketed to.”

MARK KOENIG
Chief Innovation Officer and Vice President, Technology
Oregon State University Foundation

Ellucian CRM Advance:
- Provides real-time insight into how your fundraising efforts are performing, increasing accountability
- Supports a full range of development campaigns, from the simple to the most complex, with configurations tailored for higher education
- Drives ROI by streamlining system integrations, user processes, and analytics
Capabilities

Extend your prospect reach
Intuitive search, reporting, and workflow capabilities provide greater flexibility, configurability, and extensibility across your institution, helping you enhance your fundraising efforts and manage progress toward annual campaign goals more efficiently.

Fundraise from anywhere
A secure, cloud-based, mobile user interface provides staff with quick, logical, intuitive access to the data they need, including a unified view of interactions—so they know who’s given and who hasn’t.

Tailor access for all users
Configurable, role-based dashboards and user interface can be tailored to each user’s needs.

Reach fundraising goals faster
Support the multifaceted needs of donor cultivation and stewardship, as well as contribution processing.
