

Ellucian Accessibility Framework

Commitment to Accessibility: Focus on user needs by involving people with disabilities in the design process, ensuring intuitive navigation, friendly interactions, compatibility with assistive technologies, by adhering to global accessibility standards.

Ellucian Accessibility Program: A dedicated team implements and executes accessibility policies, provides feedback, and offers training and internal support.

Accessibility Testing: Utilization of standardized tools for both automated and manual inspection.

VPAT Reviews: Use of VPAT to demonstrate compliance with accessibility standards, available with each major release or new full testing cycle and includes a list of reported defects.

Accessibility Statement

We are committed to fostering a diverse and inclusive digital landscape, endeavoring to make our products and solutions welcoming, accessible, and equitable for all individuals. As innovators, at Ellucian we integrate values like Leadership, Innovation, Growth, Humanization, and Transformation into our culture, prioritizing accessibility in every aspect of our work.

We aim to inspire industry-wide conversations and actions that enhance digital inclusivity and promote social responsibility. By supporting initiatives that improve accessibility, we strive to create impactful, sustainable solutions and contribute to a collective effort to shape a more inclusive digital future and provide equitable digital experiences.

Conformance Status

Ellucian products aim to conform with WCAG 2.1 Level AA standard. As part of our product development process, we have been analyzing the accessibility requirements for WCAG 2.2 that are applicable to our solutions. As we determine the necessary changes which need to be incorporated into our solutions, we will be targeting work throughout 2025 and into 2026 to enable institutions to conform to the WCAG 2.2 guidelines.

Feedback

We welcome your feedback for accessibility. Please let us know if you encounter accessibility barriers.
